## RISKONTROL®

Disposable tips for Air/Water syringes

### Infection control

Riskontrol syringe tips are disposable. The risk of direct or cross-contamination is consequently eliminated as well as the risk of microbial migration.

Riskontrol ensures your patient's and your own protection.

- ▶ Tips are flexible and bendable.
- ▶ Two independent tubes guide air and water of the syringe to the extremity of the tip ensuring totally dry air.
- ▶ The Riskontrol range includes almost 70 different adapters.
- ▶ Syringe tips are made from entirely recyclable food-quality plastic.

**Riskontrol :**  
Choose your color !
